PRINCE HENRY CENTRE 7PM.

WESTERN SYDNEY WED 1ST APRIL
ERSKINE PARK COMMUNITY CENTRE 7PM.

IPSWICH (QLD) FRI 3RD APRIL
WG HAYDEN HUMANITIES CENTRE 7PM.

Australia faces serious waste management challenges following a federal government decision to ban waste exports.

But is burning our waste for energy a real solution? Learn about the adverse impacts on our health, environment, jobs, communities and local governments that incinerators bring and also the sustainable zero waste solutions that cities all over the world are achieving right now. This forum is suited to state and local governments, host communities, academia and the general public.
